EXPERIENCE

Rather Labs, Inc. | Remote | Dec 2024 - May 2026

Full Stack Engineer: Nov 2025 - May 2026 | Software Developer: Jul 2025 - Nov 2025

- Built and maintained trading interfaces in Next.js and TypeScript, including live positions, PnL views and wallet filtering.
- Implemented Auth0 login and session management across Next.js and NestJS, and referral validation APIs with the corresponding frontend UI.
- Contributed to a modular NestJS backend refactor and EVM protocol integrations in indexer services.
- Investigated and fixed wallet-selection state drift, with shared matching logic and unit tests.

Software Developer Intern: Dec 2024 - Jul 2025

- Implemented core Solidity contracts for cross-chain EVM lending with multi-chain collateral and debt positions.
- Developed airdrop and DeFi contracts, and dApps connecting contracts with Next.js and Node.js backends.

N2 | Software Engineer Intern | Apr 2023 - Oct 2023

Contributed to a database platform connecting startups with venture-capital investors.

Libertum Project | Blockchain Developer | Dec 2022 - Apr 2023

Collaborated on ERC-20 utility tokens, launchpad contracts and real-estate tokenization infrastructure.

Freelance | Blockchain Developer | Feb 2021 - Jan 2023

Developed ERC-20/721/1155 contracts and minting platforms; worked on NFT marketplaces, stablecoin liquidity mechanisms and a DEX.

BetterBets | Frontend Developer Intern | Jun 2022 - Nov 2022

Contributed to a crypto gaming platform frontend using Vue 3 and GraphQL.
